

A Life in the Wild: George Schallers Struggle to Save the Last Great Beasts

For more than fifty years, explorer-naturalist George Schaller has been on a mission: to save the worlds great wild beasts and their environments. In this compelling biography, illustrated with Schallers own striking photographs, Pamela S. Turner examines the amazing life and groundbreaking work of the man International Wildlife calls the worlds foremost field biologist. Schallers landmark research revolutionalized field biology, demonstrating that it is possible to study dangerous animals in their own habitats: mountain gorillas in Central Africa, predatory tigers in India, mysterious snow leopards in the Himalayas, and many others. His insights about species and environment led him to successfully advocate for the protection of over 190,000 square miles of wilderness around the world an area the size of Spain. Packed with grand adventure, intriguing science, dramatic photographs, and Schallers own breathtaking descriptions of the natural world and the animals who live in it, this full-color biography brilliantly captures the spirit and passion of George Schallers unusual and inspiring life in the wild.
