

# Breaking Out of Environmental Illness: Essential Reading for People with Chronic Fatigue Syndrome, Allergies, and Chemical Sensitivities

This is a book written to accelerate the personal healing of anyone suffering from any form of environmental illness. It tells the story of how a physician and a nurse liberate themselves from a common debilitating condition. After exhaustive attempts to heal themselves through conventional methods, they moved beyond feeling victimized by physical symptoms. Instead, they learned how to interpret them as communications from their bodies about unexpressed emotions and various structures they had created in their lives which no longer supported them.
