

Sentinel South China Seas (Janes sentinel series)

Country-by-country, threat-by-threat, this series of global security assessments provides a fuller understanding of national strengths, weaknesses and opportunities. Janes Sentinel represents a complete information service on order of battle, defence industry, perceived threats and capabilities of a country or region. This series is supported, as part of the subscription, by a monthly update news service and, in times of conflict or emergency, by a broadcast fax service which will inform users of developments. Each Sentinel publication is available on CD-ROM approximately two months after publication of the binder. No updates are included with the CD-ROM. This unclassified regional intelligence report covers the South China Sea area. With coverage of political, economic and cultural issues, a detailed order of battle and a military overview, Janes Sentinel: South China Sea is a constantly updated database of facts and news on the area. Countries covered in this volume are: Brunei; Cambodia; Indonesia; Laos; Malaysia; Philippines; Singapore; Spratly Islands; Thailand; and Vietnam.

South China Seas by regional maritime security, commercial, and national survey . told Janes that the M80A has already performed a series of hydrographic.138 Hong Nong, Interpreting the U-shape Line in the South China Sea, China-US 155 China and Northeast Asia, Armed Forces, Janes Sentinel Security: Janes Sentinel Security Assessments: China and North East Asia (Janes sentinel series) (9780710612502): Harry Puckering: Books.Philippines Upgrades Military to End China Bullying in S.
