

# Electron Spin Resonance Vol 1 (Specialist Periodical Reports)

Specialist Periodical Reports provide systematic and detailed review coverage of progress in the major areas of chemical research. Written by experts in their specialist fields the series creates a unique service for the active research chemist, supplying regular critical in-depth accounts of progress in particular areas of chemistry. For over 80 years the Royal Society of Chemistry and its predecessor, the Chemical Society, have been publishing reports charting developments in chemistry, which originally took the form of Annual Reports. However, by 1967 the whole spectrum of chemistry could no longer be contained within one volume and the series Specialist Periodical Reports was born. The Annual Reports themselves still existed but were divided into two, and subsequently three, volumes covering Inorganic, Organic and Physical Chemistry. For more general coverage of the highlights in chemistry they remain a must. Since that time the SPR series has altered according to the fluctuating degree of activity in various fields of chemistry. Some titles have remained unchanged, while others have altered their emphasis along with their titles; some have been combined under a new name whereas others have had to be discontinued. The current list of Specialist Periodical Reports can be seen on the inside flap of this volume.

Specialist periodical reports. Nuclear magnetic resonance. HOME Specialist periodical reports. Nuclear Environmental Chemistry. Vol. 1. Specialist Periodical Reports Electron spin resonance, volume 2 (a specialist periodical report) Electron Spin Resonance Norman, R. O. C Volume 1 : a review of the literature published between January 1971 and May 1972 / senior reporter, London : Chemical Society, - A specialist periodical report 1 online resource (x, 273 p. :) : ill. Nuclear Magnetic Resonance, Vol. 20, Specialist Periodical Reports, G. A. Webb, Senior Reporter. Royal Society of Chemistry, London. 1991. 601 pages Results 1 - 44 of 44 Each volume of Nuclear Magnetic Resonance comprises a combination of annual and biennial Specialist Periodical Reports Online Customers purchasing a print volume are entitled to free Showing 1 - 44 of 44 results. Specialist Periodical Reports provide systematic and detailed review coverage of progress in the major areas of chemical research. Written by experts in their Electron Paramagnetic Resonance (EPR) Volume 19 highlights major developments in Specialist Periodical Reports provide systematic and

detailed review coverage in major areas of chemical research. Pages 1 - 32 ESR monographs. Books on Electron Spin Resonance (ESR), alias Electron Paramagnetic resonance (EPR) Resonance, a Specialist Periodical Reports, Volume 24, . Resonance: Volume 1: Applications in Chemistry Electron paramagnetic resonance : elementary theory and practical applications .. Electron Spin Resonance - Specialist Periodical Reports, Vol. 1: Roy. Soc. Results 1 - 9 of 9 Home > SPR - Electron Paramagnetic Resonance Specialist Periodical Reports Online Customers purchasing a print volume are entitled to free site-wide access to the electronic version of that Showing 1 - 9 of 9 results. Assenheim H.M., Introduction to Electron Spin Resonance, Springer 2014, 216 p 109-160, ISBN: 978-1-62948-734-2. Chechik V., Murphy D.M., Gilbert B. (Eds), Electron Paramagnetic Resonance, a Specialist Periodical Reports, . EPR to Metalloenzymes, in Biological Magnetic Resonance, Vol.29, Springer, 2010, 419 p SPECIALIST PERIODICAL REPORTS Vol. 1. Senior Reporter: Prof. F.D. Cunstone. Covers 1976-77 literature. 319 pages Electron Spin Resonance, Vol. 5. Specialist Periodical Reports provide systematic and detailed review coverage of progress in the major areas of chemical research. Written by experts in their Electron spin resonance, volume 2 (a specialist periodical report). HOME Electron spin Environmental Chemistry. Vol. 1.
