

The Prophet Elisha Among our Traffic Lights and Skyscrapers

In our present day and age; people do not expect to encounter a mighty prophet of God, such as Elisha, walking the streets, strolling among sky scrapers and navigating traffic lights. I do not think that the reason for this is that we are living in an era of grace in which powerful, prophetic personalities are no longer among us. I do believe the problem is that the contemporary church is losing sight of the reality of the Holy Spirit and His ability to transform peoples lives so that they truly behave according to Gods model, rather than their own. In this work I intend to delve into events in the life of the prophet, Elisha, finding essential lessons for our consideration. This is by no means a thorough consideration of all that we can learn from His life, and is not meant to be a criticism of Gods people, but rather a loving challenge and encouragement to pursue our prophetic purpose on the earth.
