

Soul Bared: A Metaphysical Journey

David Oakford's experience on The Other Side of death's curtain is real, valid, and profound. Although drugs were the initial trigger for what he went through, and clearly the evidence for drug effects color the first part of his episode and the beginnings of the second part, what happened next was a full-blown ascended state that had a significant impact on him. Near death experiences are not magic, nor do they produce saints. And we can thank David for revealing this, for baring his soul. From the struggles and depression that followed, there emerged a truly changed man who knew, positively knew, that there is more to life than we are taught, and more to God's Greater Plan for us than we might imagine.
