

The Semantics of Nominalizations across Languages and Frameworks (Interface Explorations)

The volume explores the semantics of nominalizations from different theoretical points of view: formal and lexical semantics, cognitive-functional grammar, lexical-functional grammar, discourse representation theory. Data from a variety of languages are taken into account, including Hungarian, Italian, French, German and English. The papers discuss the semantics of distinct readings of nominalizations and meaning differences observed between competing affixes.

series (Interface Explorations 22) which deals with the semantics of nominalizations (The Semantics of Nominalizations across Languages and Frameworks) The Syntax of Nominalizations across Languages and Frameworks. Ed. by Alexiadou, Artemis / Rathert, Monika. Series: Interface Explorations [IE] 23 interface as well as the semantics-syntax interface in the domain of nominalizations.
